

Process Map – Campus Coffee Shop Checkout

This simple process map shows the main steps from when a student joins the line to when they leave the counter with their drink. It is meant to match what really happens today, not what is written in any policy.

Step #	Step Name	What Actually Happens	Owner	Typical Time (sec)
1	Join Queue	Student walks to the counter area and joins the end of the line.	Customer	—
2	Wait in Line	Student moves forward as others are served. Sometimes the cashier steps away, and the line stops.	Customer / Cashier	Variable (can be several minutes)
3	Place Order	Cashier greets student, listens to order, and enters items into the register. Custom drinks sometimes require looking up prices.	Cashier	45–60
4	Confirm Total	Cashier reads total, student checks it, and may ask to add or remove items.	Cashier / Customer	15–30
5	Payment	Student pays with card or cash. Card payments sometimes take longer due to network delays.	Cashier / Customer	30–60
6	Receipt / Loyalty	Receipt is printed or declined. If used, loyalty stamp or app scan happens.	Cashier / Customer	10–20
7	Move to Pickup Area	Student steps aside and moves to the drink pickup area.	Customer	—
8	Receive Drink	Barista calls the order, student picks up the drink and leaves the counter.	Barista / Customer	—

For this Measure phase, the main focus is on steps 1–5 (from joining the queue to completing payment).
